FULLSTACK DEVELOPER

DAVITO IMMIGRATION SERVICE

BRAMPTON, ONTARIO

MAY 2020 – OCTOBER 2021

Despite the hardships of the pandemic and there being a shortage of opportunity, I was able to persevere and land an opportunity in a new country. Davito Immigration service is an immigration company based in Brampton, Ontario. My team was tasked with creating and deploying their online web application. I completed this task by using the following:

- Node JS and Express to handle the backend and Api Creation
- React JS to handle the front end.
- Followed the Figma design patterns to ensure my code is in line with the Company's requirements.
- Css and JavaScript for styling
- Git for Version control, Heroku and Go daddy for deployment, using DNS target to combine both.
- Registering for SSL certificate to keep the site safe and secure.

FULLSTACK DEVELOPER
NADA CREATE
REMOTE
NOVEMBER 2019 – MAY 2020
- Wrote well-designed, testable, efficient code using Node JS, React JS, Express for the company's e-commerce web application.
